REGISTER MEGEATH OBJECTS. He Says the Commissioners Shall

Not Name His Clerks. At the session of the county commissioners held last Friday afternoon, Ed. Parrotte and James Atwood were appointed as experts to correct and re-write the indices of the lands and lots in Douglas county.

the lands and lots in Douglas county.

These men were to receive \$75 per month each while so employed. Yesterday they reported at Register Megeath's office and demanded the books, stating that they wanted to begin the work that they had been hirel to do. Megeath had some doubts about the beard's right to hire his clerks, and at once went out and consulted his attorney. Upon his return the two men were informed that they could not draw a pen over any book that they could not draw a pen over any book

in the office.

In speaking of the matter Megeath said:
"I am under bonds to the county
to keep a correct record of everything that passes through my hands. This
being the case, I don't think the commissioners have anything to say about who shall be
hired to re-write the records. I am held
under my bonds for the correctness of the
records and I don't think bean be compelled
to turn the office over to mea that the commissioners may see fit to hire and then certify to their work.

"One thing is certain. The men who

POST OFFICE CHANGES.

New Clerks Added in Several Over-

worked Departments. The clerical force at the postolice has been increased by the addition of six new clerks, assigned as follows: William Ahlstadt, night registry cierk; W. M. Erickson and L. Victor Braco, distributing cierks; J. V. G. Shuetleff and Charles S. Hawkins, mailing clerks; Miss Lizzie Mawhinney, assistant stemp clerk stamp clerk.

The stamp department has been enlarged to give room for the two clorks, the additional room being taken from the registry department, which is thereby made considerably resulted.

The registry window is removed from its old place to a point near by and opposite the money order window.

A Pleasant surprise.

A few evenings ago E. B. Smith, late of Grand Island, who has been general foreman of the car shops of the Utah division of the Union Pacific railway for the past sixteer months, was pleasantly surprised at the resi dence of Joseph Proctor, an employe in his department, where a large number of car penters, painters, truckmen, inspectors and other workmen in this department of the service had met to present Mr. Smith with an elegant silver tureen as a token of the esteen in which he has been held by all the mein which he has been held by all the men under his jurisdiction, says the Sait Lake Tribune. Mr. Smith's pleasant manners, good discipline and thorough knowledge of his business as a master car builder has won for him the good will of all who know him.

The occasion of this social gathering, where a generous supper was partaken of, was to all present regrettable. For several months several changes have been made on months several changes have been made on the Utah division, some of which affected Mr. Smith unfavorably, so much so, that he concluded to change his location in the ser-vice of the Union Pacific railway company, if such a change would meet with the ap-proval of the proper authority. He soon learned that his wishes were regarded favorably, and a position assigned him on the east end of the system. The evening was spent in short speeches, sentiment and song until a late hour. All were well pleased and gratified and none were more so than Mr. Smith and family. Mr. Smith and family left for Omaha yesterday morning.

ANNOUNCEMENTS.

Monday's sale of seats for the Thomas concerts more than doubled that of any previous day, and large orders were received out of town. Unless the weather prevents, doubtless four or five thousand people will attend these concerts. Too much praise cannot be given the Apollo club for their enterprise in securing this splendid company, and the only regret is the original arrangement of two regret is the original arrangement of two evenings here could not be carried out. Now that success is assured, the club is in a position to think more of such great attractions in the future, and Manager Blakely, who is now in Europe, will doubtless arrange to play here with the club the finest American and European attractions (a number of which he will control for the world's fair). As the ovening concert must begin promptly at so o'clock, all should be prompt in their attendance, as no one will be seated after the symphony commences till the close of the first movement.

The successful marine spectacle "The Bottom of the Sea" will be produced at the Grand on Friday, Saturday and Sunday evenings next, and at Saturday and Sunday matinees. The piece abounds in scenic and mechanical effects of upusual brilliancy. It has enjoyed long runs in Boston and New York. One scene of special beauty is that from which the piece derives its title, showing the bottom of the sea with divers at work on the wreck of a sunken ship, in which the on the wreck of a sunken ship, in which the resources of scenic and mechanical lugeralty have been exhausted. SMOOTH COUNTERFEITERS.

Working Their Game Along the Union Pacific Railway. A smooth game of shoving the queer is being worked along the main line of the Union Pacific in Wyoming and Idaho. The principal actor happens to be a tall, slender, nice looking man, who approaches a passenger or a bystander at the station, very hurger or a systander at the station, very harriedly, just as the passenger train is about to
pull out and asks for change for a twentydollar bill. He generally gets it and jumps
on the moving train before his victim discovers that the bill is counterfeit.

This game has been tried at several places
along the Union Pacific and efforts have been
made to capture the man by the graphing to

the next station, but he has eluded capture. Stand Your Ground.
